PROFESSIONAL SUMMARY

High-performing Computer Engineering student and aspiring Data Scientist with expertise in Python, SQL, Power BI and AI-driven solutions. Dedicated to solving complex problems through data visualization and machine learning, maintaining a consistent academic record above 94%.

EXPERIENCE & LEADERSHIP

Cultural General Secretary - Student Council

July 2025 - March 2026

DKTE Society's Yashwantrao Chavan Polytechnic

- Organized and managed large-scale cultural and student engagement activities for the institution.
- Led diverse student teams through effective task delegation, coordination, and timeline management.
- Strengthened institutional leadership, collaboration, and communication abilities through council responsibilities.

Open Source Contributor - Open Source Connect Global (OSCG'26)

Feb 5 - 25, 2026

Remote

- Actively participated and provided valuable contributions as a Contributor during the global open-source event.
- Collaborated on community-driven initiatives focused on learning, innovation, and shared network growth.
- Gained practical exposure to open-source development workflows and collaborative problem-solving.

Vice President - Computer Department Council

July 2025 - March 2026

DKTE Society's Yashwantrao Chavan Polytechnic

- Coordinated technical events and departmental activities involving a student body of 100+ participants.
- Facilitated effective communication between faculty and students for the smooth execution of initiatives.

PROJECTS

DeepFake KYC Buster | *Python, OpenCV, TensorFlow, AI Studio*

- Developed an AI-powered identity verification system designed to detect deepfake-based fraud during digital KYC processes.
- Implemented real-time facial verification and fraud detection workflows to enhance digital security and prevent identity theft.
- **Links:** [GitHub](#) | [Live](#)

AI-Assisted Task Manager | *HTML, CSS, JS, AI Integration*

- Built a responsive web-based task management application integrated with AI-assisted features for optimized workflow organization.
- Implemented a productivity-focused interface that allows users to organize tasks efficiently through a modern and clean UI.
- **Links:** [GitHub](#) | [Live](#)

Apna E-Book Website | *HTML, CSS, Frontend Design*

- Designed and developed a fully responsive e-book platform focusing on high readability and a structured layout for digital content.
- Implemented a modern interface using core web technologies to ensure smooth navigation across various mobile and desktop devices.

EDUCATION

DKTE Society's Yashwantrao Chavan Polytechnic, Ichalkaranji <i>Diploma in Computer Engineering</i> Semester 3: 94.82% Semester 2: 95.88% Semester 1: 92.47%	2024 – Present
Sane Guruji Vidyalaya, Kurundwad <i>Secondary School Certificate (SSC) Score: 97%</i>	Score: 97%

TECHNICAL SKILLS

- **Programming:** Python, SQL, Java, C++, C, PL/SQL
- **Data Analytics:** Power BI, Tableau, Excel, Pandas, NumPy, Matplotlib
- **Databases & Tools:** MySQL, Oracle DB, Git, GitHub, VS Code, Jupyter, Figma
- **Core Concepts:** Data Structures & Algorithms, Machine Learning, OOP, Data Cleaning

CERTIFICATIONS & ACHIEVEMENTS

- **Certifications:** Java (NPTEL), Python (Sololearn), Power BI (Simplilearn), IBM Python for AI.
- **Coding:** Solved 100+ problems on [LeetCode](#) to strengthen analytical skills.
- **Success:** Secured selection in 4 different internship opportunities through project-based learning.
